

# Do I Need To Hire a VA?

Are you a Commercial Real Estate (CRE) broker who believes you can handle every aspect of your business alone? You might think you don't need a Virtual Assistant (VA) from the Philippines. But let's consider what a VA really offers and whether you're truly ready for the level of growth and efficiency a VA can bring.

Do you have the time to manage endless scheduling, meticulous email sorting, and detailed data entry without help? If you're handling all these tasks with ease, you might not need to hire a VA. But if you're feeling the strain and seeing opportunities slip through your fingers, it's time to ask yourself: Are you limiting your potential by not delegating these tasks?

Here is the real deal with Philippine VAs. They excel in communication, have a strong work ethic, and adapt quickly to different business cultures. If you're interested in leveraging their skills to cover multiple time zones, decrease your business hours, and expand your business reach globally, then it's time to consider hiring a VA.

Are you ready to embrace the support that could elevate your business to new heights?

Our LeveragedVA program not only connects you with a VA but also ensures they are equipped with CRE-specific skills. The program includes training in popular CRE software and tools, enabling your VA to start effectively without the need for extensive training.

Here is our streamlined hiring process:
